ANATOMY OF THE CARDIOVASCULAR SYSTEM

It lies in the mediastinum just below the body of the sternum between points of attachment of the second through sixth ribs. Approximately two thirds of the heart's mass is to the left of the midline of the body and one third is to the right. Describe the shape of the heart.

A&P Chapter 18 Anatomy of the Cardiovascular System ...

Our large, complex bodies need blood to deliver nutrients to and remove wastes from our trillions of cells. The heart pumps blood throughout the body in a network of blood vessels. Together, these three components—blood, heart, and vessels—makes up the cardiovascular system. This chapter focuses on the medium of transport: blood.
