Explorelearning Phases Of Water Answer

Heat or cool a container of water and observe the phase changes that take place. Use a magnifying glass to observe water molecules as a solid, liquid, or gas. Compare the volumes of the three phases of water.

Phases of Water Gizmo : ExploreLearning

What distinguishes a solid, liquid, or gas? In the Phases of Water Gizmo, students compare what happens to a water sample on a macroscopic scale to corresponding molecular-scale changes. After heating the water to boiling, a magnifying glass can be placed at the boundary between liquid and gaseous water. The resulting molecular view shows that while liquid and gas both have free-flowing ...
