"Wearing your hair natural with no heat is the way to go," says Wright. If you are going to apply heat, Wright recommends a curling wand (with heat protectant) if you're going out for a special occasion or a night on the town. She says you can also do a double strand twist-out with a gel or curl cream, if you want to skip the heat.

10 Ways to Make a Transition to Natural Hair Easier

"When transitioning, wearing your hair down, in its natural state is the best way to help your hair. Damaged hair sheds more, so if you are putting it up constantly in ponytails and buns, this increases your shedding. I usually recommend doing a more gentle protective style such as bantu knots, braid outs or twist outs.

Transitioning to Natural Hair 101, According to the ...

Keep heat styling to a minimum: Instead of relying on hot tools to blend your hair textures (which can lead to breakage), try protective hairstyles (like braids) that are easier on your hair. Styles that play up your natural hair texture are great options, too. Think twist-outs, braid-outs and flexible rods. 4.
