Bought a car recently from Holden and dealt with Alex who was excellent from beginning to end. There is an intermittent headlight sensor warning which pops up from time to time which doesn't affect the lights in any way. This needed to be sorted before I bought the car (which it was) but after a week it started flashing up.

The job of the shock absorber is a simple one - to keep you as steady on the road as possible. When there are the inevitable bumps and potholes to deal with, it's the shock absorbers that keep your wheels tight to the road, working with the suspension system to even out surfaces and keep you on the straight and narrow.
