Richard M. Palin, Brendan Dyck, in Encyclopedia of Geology (Second Edition), 2021 Low P/T Series (Contact) Metamorphism. Contact metamorphism occurs due to heating, with or without burial, of rocks that lie close to a magma intrusion. It is characterized by low P/T gradients, as strong thermal gradients between an intruding magma and adjacent country rock are best established at shallow ...

White Noise : Simulation and Analysis using Matlab

The union of [SiO₄] 4- and [AlO₄] 5- leads to the formation of more complex structures, known as composite building units (CBU), being represented by rings and cages. The rings are named according to the number of oxygen atoms, and rings between 4 and 12 atoms are more common. In the peripheries of the crystal lattice, the rings are called windows and define the effective diameter of the ...

Zeolite Application in Wastewater Treatment - Hindawi

Organism Description. The organism now known as *C. difficile* was described by Hall and O'Toole in 1935,¹¹ but it was not until 1978 that Bartlett and colleagues¹² identified *C. difficile* as the causative agent of antibiotic-associated pseudomembranous colitis. *C. difficile* is a Gram-positive, anaerobic, spore-forming rod. It is found in humans, a variety of animals, and the environment.^{13,14} ...
